**Do you have a client who wants to buy or sell a business?
Now, what do you do?**

- Buying and selling a business is not really in the arena of residential or commercial property.
- It is somewhere in between. How do you value a business for buying or selling?
- Is it fully documented with income and expenses or is there a lot of cash being generated that may not show up on the books?
- What are the important pieces to know in this arena of real estate?
- Be armed with good information when you speak with your clients..
